Infield: Use your best judgment.

Intentional Walks: Use your best judgment. I prefer to use this in game changing situations, don't let your big gun drive in the winning run if the base is open.

Sacrifice: Use your best judgment. Try not to take the bat out of the hands of the big hitters.

Pinch hitting/running: Usually the only pinch hitting will be for the catcher each game as we will have 3 catchers on the roster most months. Alexi Armarista will be the key pinchhitter and defensive replacement.

Hit and run: This is my favorite way to use my SBA's. In the sixth with the score -2 to +1 with Weeks, Tabata, or Izturis on base look to hit and run.

Steal: See Hit and Run we prefer that whenever possible over the straight steal

Positions:

Catcher- Jarrod Saltalamachia and Austin Romine will split time behind the plate this year, Tyler Flowers will finish most games but not hit very often.

First Base- Freddie Freeman should be here everyday all day unless injured.

Second Base- Michael Young, and Jordy Merer will cover second base most of the year. Armarista is Youngs defensive replaement late in games we lead.

Third Base- Evan Longoria and Miguel Cabrera will see time at the hot corner.

Outfield- Andre Ethier, Andy Dirks, Jose Tabata, and Luke Scott will all see time in the outfield. Amarista will replae Sott late in games we lead.

Designated Hitter- Miguel Cabrera will be the starter most days.

PITCHING:

Starter- This might be our deepest rotation we have ever sent to the mound. Most of the starter should try to atleast get into the 6th inning if not finishingit. Archer, Lee, and Cashner should be given the chance to work out of a little bit of trouble. While Colon, Feldman andMcAllister should do ok but we have a decentpen and in a tough spot goto the pen and get the bonus to try and stop a rally and presserve a win. If we have a lead after 6 innings keep atight look at where the starter is and what is available in the bullpen.

Bullpen- The Bullpen should have 6 guys in the pen each month. Carpenter is the regular closer this year but when Purcey is up he can also close as the leftie closer/late inning 1-2 batter specialist. Jose Verasis the main set up guy. Qualls, Harris, Marmol (righties) Veal and Wright (lefties) should finish the 6th when the starter cant and cover the 7th and maybe 8th, This is a mix and match group to try and take away your big shifts. KrollandRondon will be the earlyguy if a starter explodes or if the game gets out of hand late in the game. I will send out details with each series as to how many innings each pitcher should be limited too.

Questions- Feel free to give me a call if you have any questions 740-361-1924.
