The 2015 Chia Pets, unlike the past couple of years with back to back playoffs appearances and Mays division crowns this year will be taking a step back. Actually they fell off a cliff and possibly all the way to the bottom of the league. There is a little bit of offense which is what will keep us in games because as bad as the bullpen is the starters are worse. Not much managing to do this year until the end of the game for the offense and for the pitchers the score will dictate who should be in the game.

LINEUPS: LINES SHOULD BE SENT FOR EACH SERIES.

Inciarte cf
Mercer 2b
Cabrera dh
Freeman 1b
Longoria 3b
Ethier rf
Saltalamacchia c
Suarez ss
Tabata lf

Infield: Use your best judgment.

Intentional Walks: Use your best judgment. I prefer to use this in game changing situations, don't let your big gun drive in the winning run if the base is open.

Sacrifice: Use your best judgment. Try not to take the bat out of the hands of the big hitters.

Pinch hitting/running: Not much to do here usually the starter is in for the long haul.

Hit and run: This is my favorite way to use my SBA's, in the eighth with the score -2 to +1 with a fast runner and Mercer, Inciarte, or Tabata at bat .

Steal: See Hit and Run we prefer that whenever possible over the straight steal

Positions:

Catcher- Jarrod Saltalamachia and Tyler Flowers will split time behind the plate this year.

First Base- Freddie Freeman should be here everyday all day unless injured.

Middle Infield- Jordy Merer will be out there almost every game, Chris Owings, Suarez, Zack Cozart, and Alcantara will all see sometime on the field.

Third Base- Evan Longoria will see every game from the hot corner.

Outfield- Andre Ethier, Alexi Amarista, Jose Tabata, Cesar Hernandez, and Ender Inciante will all see time in the outfield.

Designated Hitter- Miguel Cabrera will be the starter most days.

PITCHING:

We have a lethal combination here with bad starting, a bad bullpen and not enough of it. Chris Archer is the Ace at grade 11 and Scott Feldman grade 8 get 61 starts and should try to finish 7 if at all possible. Danks grade 6 and Colon grade 5 is another 63 and should finish 6, the last 38 games is grade 3 Cliff Lee, Zach McAllister, and grade 1 Christian Bergman I would like 5 but you probably wont get to make a decision on days they pitch it will probably be forced upon you by them.

Bullpen- The Bullpen should have 6-7 guys in the pen each month. Storen is the regular closer this year if we have a lead in the 8th or 9th. Lefties, Wright or Thomas is the bad lefty in the pen and Krol is the really bad lefty in the pen. Carpenter, League and Webb are the middle guys. Qualls, Harris, and Hale are the rest and everyone in the pen can be used if needed.
