### STRATEGY STATEMENTS

The Grand Cayman brain trust wants to win, win now, and win big. Only a few players (mostly Avila, Maybin, and Reyes) have significant limitations, but their roles have been adjusted accordingly. The deep bullpen and available bench makes this Havens team fun to play. **Regarding substitutions:** Do whatever it takes to win — unless a player is specifically forbidden (**DO NOT USE** in the USAGE CHART), you can use him off the bench. Beyond the three aces, be aggressive with the bullpen.

**Don't use BBW managers. I play the Board Game. Please send BOTH TEAMS' STATS with the game sheets.**

### OFFENSIVE STRATEGY

#### HIT AND RUN

##### BATTERS:

- **Aoki** and **Cabrera** H&R whenever legal WITH ANY RUNNER who has attempts left, except SLOW runners (if 8s are hits).
- Add **Crawford**, **Holliday**, **Maybin**, **Reyes**, **Seager**, and **Toles** when the runner has 24+ adjusted chances and isn't SLOW.

##### BASE RUNNERS:

- **Dozier**, **Jankowski**, **Maybin**, **Polanco**, and **Toles**.
- Add **Crawford**, **Reyes**, and **Seager** in the 6th or later.
- Add **Aoki** only when **Cabrera's** batting.

**Board Game:** With 1B-and-3B, H&R only with 0 or 2 out.

**Computer Game:** Never H&R with 2 outs. Hit away.

#### STEALING

Be aggressive, unless ZZZ is catching. Look to STEAL:

- **Jankowski** can steal 2B with 25+ chances ANYTIME.
- Add **Dozier**, **Maybin**, and **Polanco** in the 4th or later, 25+ chances, score within 3 runs and less than 2 out.
- Add **Crawford**, **Reyes**, and **Seager** in the 8th or later, with 27+ chances, tied or down 1 run.
- **Dozier** can steal 3B with less than 2 out or home with exactly 2 out, if we're tied or down 1 run.
- **Jankowski** has no limits. Limit **Dozier**, **Maybin**, and **Polanco** to 2 attempts per series and all others to 1 attempt per series.
- **Continue to H&R** even if the runner has used his attempt(s) for the series, as long as he still has attempts for the season.

#### PINCH-RUNNING

- PR with **Jankowski** when it's tied or we trail by 1-2 runs in the 6th or later. **Jankowski** can even PR for **Aoki**.
- If **Jankowski** is unavailable, use: **Aoki** (15 speed) or **Reyes** (16 speed) to PR for any SLOW runners in scoring position, 7th inning or later, if we're tied or down 1 run. You can even use **Cingrani** (13 speed) for a SLOW runner (e.g., **Gattis**).

#### PINCH-HITTING

See the PLAYER-BY-PLAYER USAGE CHART on the next page.

**ALWAYS MAINTAIN THE BEST DEFENSE IF WE LEAD.**

#### SACRIFICE

No outs; runner on 2B or 1B-and-2B; down 2 to up 1; 6th inning or later. Do not squeeze.

#### RUNNER ADVANCEMENT

**Board Game:** Use Adams Tables, but be conservative with SLOW runners and aggressive with FAST runners.

**Computer Game:** Play our team like you play yours.

### DEFENSIVE STRATEGY

#### OUTFIELD THROWS

Throw for the lead runner unless the chances are 33+. Always throw for the tying/go-ahead runner in the 6th or later.

**Computer Game:** Follow this principle; use your judgment.

#### HOLD RUNNER ON FIRST

NEVER HOLD vs. a PR hitter. Otherwise, always hold if the score is within 4 runs, UNLESS the runner is no threat to steal.

#### PLAY INFIELD IN

PLAY IN from the 6th inning, 0-1 out, tying/go-ahead run on 3B. Play deep for the DP with 1 out and a runner on 1B too.

#### INTENTIONAL WALK

Use it when it makes sense. Never walk the bases loaded.

#### PITCH FROM THE STRETCH

In the 6th or later, score tied or we're up 1, with a threat on 3B.

### PITCHING STRATEGY

#### MANAGING THE STARTERS

We try to win every single game. Every starter leaves when he fatigues, if not sooner. Our worst starters can get help AS EARLY AS THE 1ST INNING, and they have LH caddies to shake up your lineup. **Use the bullpen aggressively.**

#### We have three rules this year:

1. DO NOT REMOVE A STARTER THROWING A SHUTOUT.
2. NO STARTER SHOULD PASS 11.7 INNINGS IN ANY GAME.
3. NO STARTER PITCHES PAST HIS FATIGUE (UNLESS #1).

**Verlander (V)** should go until fatigued, but with our strong bullpen, he can leave anytime in the 6th or later to stop a rally if the game's tied or we're ahead by just a couple of runs.

**Lester (L)** and **Teheran (T)** have good grades, but short fatigues (25). Both stay in until they fatigue, unless you mount a rally and we're ahead by a few runs. We have the pen to protect a lead in a close game. See the QUICK REFERENCE GUIDE on the next page to determine which reliever to bring in. Use the best reliever option whenever in doubt. We want to win these games.

**Worley (W)** is difficult to manage. He has a good enough grade to keep us in the game, but it's Vance Worley. Remove him:

- When fatigued or reduced, score within 4 runs
- In the 4th inning on — runner on base, score within 3 runs — to stop a rally, maintain a lead, or keep the game close

**Rea (R)**, **Mengden (M)**, and **Norris (N)** fill out the bottom of the rotation, but they don't have to go far into the game. AS SOON AS THEY'VE SURRENDERED THEIR FIRST EARNED RUN, WHENEVER THAT HAPPENS, even in the 1st inning, bring in the LH caddy (**Bastardo**) immediately. If any of these three starters makes it to the 5th inning and the score's within 5 runs, go to the pen as soon as he gives up a base runner (forgetting Rule #1). We have the bullpen to cover these starts.

#### USING THE BULLPEN

We have a deep, deep bullpen with **306.3 innings** left of Grade 10\* or higher (over **7.0 innings per game!**). Refer to the QUICK REFERENCE GUIDE, but here's what you need to know:

**Group 1: Otero** is the Closer. He has **28.3 innings** left to stop hits, walks, and homers. He only comes in with a 1–3-run lead in the 8th or 9th for the save. **Limit: 1.7 innings per game.**

**Group 2:** With **41.0 innings** left between them, **Barracough** and **Davis** come in when we're down 1 run, it's tied or we have a lead in the 6th–9th innings. They can close, too, if needed. Only one is active at a time, but use them both like they have all these innings. **Limit: 2.3 innings per game.**

**Group 3:** The RH set-up crew of **Neris** and **Ma.Cabrera** has **31.3 innings** left to pitch in close games from the 5th inning on. Only one is active at a time, but use both like they have all these innings. Bring these guys in early when the game's still on the line. **Limit: 2.0 innings per game.**

**Group 4:** The LH set-up crew of **Jennings** and **Doolittle** has **38.0 innings** left to pitch in close games from the 5th inning on. Only one is active at a time, but use both like they have all these innings. **Limit: 2.3 innings per game.**

**Group 5:** RH relievers **Diaz**, **Hoyt**, and **Worley** pitch if we're behind, your RH shifts are to our advantage, or as mops. They have **80.7 innings** left, thanks largely to Worley's unused innings, to work the early to middle innings if we're down. Only one is active each month, but use them all like they have all these innings. There are lots of innings; be aggressive with these pitchers. **No limits.**

**Group 6:** LH relievers **Cingrani** and **Bastardo** pitch if we're behind, your LH shifts are to our advantage, or as mops. They have **71.3 innings** left to use anytime. Only one is active at a time, but use them like they have all these innings. **No limits.**

# 2017 GRAND CAYMAN HAVENS

## Road Instructions

First review MANAGING THE STARTERS and USING THE BULLPEN on the previous page. Use the QUICK REFERENCE GUIDE below to determine which **RELIEVER GROUP** to bring in and when. Every group has only one active pitcher at a time (except in November), but use every reliever like he has all the innings attributed to his group (refer to the table beneath the chart). We'll swap relievers on and off the active roster to make it work. If a mop is forced to leave the game, spread the work around; don't overuse any reliever. Remember that both **Group 5** and **Group 6** can act as mops when needed. **BE AGGRESSIVE WITH THIS BULLPEN!**
