

2020 CALUSA INDIANS

STANDARD INSTRUCTIONS

SEASON OUTLOOK

The outlook for the season, can be summed up in two words "NOT GOOD". Besides avoiding 100 losses, the modest goal for this season is to be the second best last place team in the TBL. Hey, if you want to be successful, set low standards. We wanted to shoot for the best last place team in the TBL, but the four teams in the Ruth Division will fight it out for that distinction. The Indians' bull pen wil again feature the "Cross Your Fingers POT' or CFP for short. So it's time to embark on the third losing season in a row. The club has employed JOEBOO in an effort to lift the injury affliction that has cursed the team the past two seasons. But hope springs eternal and as they say in Wrigleyville, "There's always next year!" The Indians will play the board game at home.

Rube Foster
President of Baseball Operations

The Lefty/righty usage splits listed above are estimated. As the season progresses, match actual usage against the estimated usage and make the necessary adjustments.

OFFENSIVE STRATEGY

HIT AND RUN: Limited. 7th inning or later, score -2 or tied. **Villar, Hampson, or Wendle** on first. **Winker, Iglesias, or Pujols** at bat.

STEALING: Limited. 7th inning or later, score -1 or tied, to get the winning or tying run to second. SSN +25 or better, **Villar**, can attempt a straight steal.

Villar limited to two steals per series. Any steal as a result of a H & R count in series' limits.

PINCH HITTING:

Against a LHP: 8th inning or later, winning or tying run in scoring position, **Ervin or M. Freeman** for **Winker, Castro, or J. Jones**.

Against a RHP: Same situation as with a lefty, **J. Jones** for **Ervin** and **Wendle** for **Frazier**

PINCH RUNNING:

Wendle can come off the bench to pinch run for any base runner not rated "F". When that base runner is in scoring position and represents the winning or tying run. 8th inning or later.

SACRIFICE:

7th inning or later to get winning or tying run in scoring position. And the H & R or straight steal is not an option. Batters: **Barnes** or **Hampson**, can attempt to sacrifice.

RUNNER ADVANCEMENT:

BOARD GAME: **Adam's Table**

RUNNER ADVANCEMENT:

COMPUTER GAME:

"Well around the bag" ---- send the runner home, and a runner to 3rd if hit is to CF or RF.

If the fielder plays a hit "on the long bounce" ,Send the runner only if he's fast. Don't send him to 3rd.

On doubles to RF line, send the fast runner home but hold the slow runner. An average speed runner can score if the OF arm is <30.

On well-hit drives to right-center, when bases empty, where the runner "hits 2nd under a full head of steam" --- try for third if he hit any triples (in the real-life MLB season).

On singles to LF, an average or fast runner can score – but no one has a good shot at 3rd. On singles to CF and RF, fast runners have a good shot at 3rd, all runners should try to score.

When the fielder "retreats to get it", send the runner home.

DEFENSIVE STRATEGY

OUTFIELD THROWS:

Throw for the lead runner unless the chances are 34+. Always throw for the tying/go-ahead runner starting in the 7th inning.

COMPUTER GAME: Follow the same principles for throwing at your runners as outlined for my runners.

HOLD RUNNER ON FIRST:

When 1B(4or5) is playing, always hold. Otherwise:

a) Hold all fast runners.

b) Hold all average runners unless I have a lead of 2 or more and there is a PR hitter.

c) Hold slow runners only with a RH hitter or less than 2 out unless I lead by 2 or more.

d) Do not hold with 2 out and runners on 1st and 3rd unless runner on 1st is the lead or tying run.

PLAYING INFIELD IN:

PLAY 'IN' starting in the 8th inning, 0 or 1 out, tying or go-ahead run on 3rd.

INTENTIONAL WALK:

I only use this on those occasions when a monster hitter comes up with the game on the line. Your call.

PITCH FROM THE STRETCH:

In the 7th or later, score tied, or Indians up 1, with a SB threat on 3B.

DEFENSIVE REPLACEMENT:

9th inning, score Indians +1 to +3. **Wendle** for **Villar** at 2B.

INJURY/Ejection SUBS:

1B **Frazier**

INF **Wendle & M. Freeman**

C **Whomever is on the bench.**

OF Whomever is on the bench.

DH Best hitter off bench.

COMPUTER NOTES:

1. Not necessary to send the game sheets/scripts for road computer games.
2. Do not use the computer manager function, prefer manual managing for the Indian road computer games.

PITCHING STRATEGY

MANAGING THE STARTERS

Flaherty is an ace. Everytime he takes the mound, the Indians have a real chance to win. Syndergaard and Wainwright not so much. Not sure our offense will score enough runs for them. The rest of the starts will come from Porcello, Quantrill, Fedde, and TBD. (See rotation schedule).

Flaherty will pitch until he has been fatigued twice. If **Weaver** makes a start, he will also pitch until he has been fatigued twice.

Syndergaard, Quantrill, Fedde, & Wainwright will pitch until fatigued. The same for **Milone**, if he makes a start.

Porcello will attempt to complete a minimum of five innings. Only remove before five innings, if pounded out. At the end of five innings, if the game is winnable, get the game to the bull pen. Winnable is defined as the game is tied, the Indians are winning, or the Indians trail by no more than four runs.

If the game is not winnable, leave **Porcello** in until pounded out.

If **Jurado** has to make a start, he will pitch three innings no matter what. If he has not surrendered a run, he will continue to pitch until he gives up his first run. After the three mandated innings, if he has surrendered a run, go to **T. Milone** for 2.7 innings. After **Milone's** innings, depending on the score, go to the bull pen. If the first run is scored after the 5th inning, then just go straight to the pen. **Milone** is limited to 2.7 innings, so he can pitch back to back games.

USING THE BULL PEN

A lot of innings of, well, a lot of innings. Ok maybe not the amazing grades of the elite bull pens, but our guys are competent enough to finish the games the Indians are losing. Maybe even preserve a few wins.

GROUP A: Luke Weaver is the man in a save situation when the starter is not going for a complete game. **Weaver** can enter the game after two outs in the 8th and earn a 1.1 inning save. Yeah I know, he is not a reliever, but when the TBL HOF'ers annoy **Weaver** the closer, well by gosh he is the closer. Of course, he does not qualify for the five point first batter boost. Still, he is the best we've got.

GROUP B/C (CFP): For the second straight season, the set-up group and the middle innings group will be combined. We will throw all these guys into one pot. We will call it pitch this guy and "**Cross Your Fingers Pot**" or **CFP** for short. In alphabetical order this pot includes: **A. Claudio, J. Diaz, E. Fedde, L. Jackson, J. Jimenez, A. Jurado, and T. Wingenter**. They are interchangeable and can pitch any inning 5 thru 8. Pitch until fatigued. **Limit 1.3 innings per game each**. Four will active each month.

GROUP D: Long Reliever and extra innings guy. **J. Holder**. He's innocuous. He will pitch when the starter is pounded out and will finish the game. No innings limit. He will pitch extra inning games until the issue is decided. The exception to using **Holder**, if the game becomes winnable, go to the best pitcher still available in the pen.

THE CADDY: T. Milone. Will be active if **Jurado** gets a scheduled start. His role is defined in the Managing The Starters section.

THE LOOGY: A. Claudio. He is part of the **CFP**, but if a loogy is called for, he can double in that role.

Use him any inning, after the starter has been lifted, and tough hitters are due up with a minus vs. LHP. He can face multiple hitters in one inning. **Limit: One inning per game.**

PITCHER						
USE CHART	Down 5+	Down 4	Down 1-3	Tied to +1	+2 to +3	+4 Up
