Melrose Cuts- Corey Oswalt, Richard Lovelady, Leonys Martin, Spencer Keiboom,

Minors- Austin Gomber, Ian Happ, Derek Holland, Tanner Scott, Yoshihisa Hirano, Zack Collins, Rowdy Tellez, Brandon Drury, Jandel Gustave, Kyle Crick

Expected Roster Move-

Starters: Quality Pitching staff with low fatigue. The idea is to go as long as possible without jeopardizing a win.

Rules for Starters:

- Do not remove a starter if pitching a shout-out
- Remove a starter that is fatigued or reduced, unless we lead by more than 5 runs, in which case he can pitch till the game is within 5 runs

Relievers: Lots of innings with no closer grade, through personal preference this leaves the team very vulnerable. The pen will have to be a committee to be successful.

Roles:

Closer- Reyes Moronta (17)- Closest thing to a closer on the staff. Pitch 1 inning per appearance

Setup- Steve Cishek, Evan Marshall, Jandel Gustave, Matt Barnes – 203 innings of 15 and 16 make up the bulk of the best of the pen. All RH so a weakness there

Middle – **Lucas Sims, Chris Martin, Kyle Crick, Derek Holland and Blake Trienen** - Make up the bulk of relief we should see 5th 6th inning. Beware of the peripherals , some are good, others are bad, still others will cause severe next strain. Holland is LH and can be used in that role.

Situational Lefty- Scott Tanner is only a 9 with limited innings but can be used against those big LH shifts. He's at least a positive HR rating.

Long- Yoshihisa Hirano, Steven Brault and **Derek Holland** can be used in long relief and mop up. If Holland runs out of RIP he'll be a one so check updates on him. **Brault** will also get a few starts so check schedule before using in relief.

RH Lineup Usage

Strategy

Offense:

Pinch Hitting: Additional PH notes

- **Tellez**, and **Casali** and the only 2 PHs available.
- They can PH for a weak batter 8th inning on if it makes sense

Pinch Running: Better options here

- **Forsythe** can PR for a slow runner
- He has limited SBAs so look to H&R
- 8th inning or later can PR Score 0 to -2

Stealing:

- Stealing should take place 7th inning or later tying or winning run, use Adams table
- Every player is limited to 1 SBA per series

Hit & Run:

- **Martinez**, **Cabrera**, **Semien**, and **Brantley** can Hit & Run any eligible runner
- Eligible runner SSN >=24

Sacrifice: Don't bother. Don't Squeeze

Runner Advancement: **Be Aggressive, especially with 2 outs**

Boards: Use Adams table

Computer: *Go when runner is well around bag*
2 out F runner on second send them home
2 out F runner on third send them home
F runner on third <2 out on Fly Ball arm <=30 send runner
Runner on 2nd, ball hit to CF or RF arm <=31 send runner

Defense:

Substitutions:

- **Not much here**
- **Do not use Maybin** as defensive sub
- When/If **Drury** up he can replace Martinez in OF after Martinez bats in 7th/8th

Infield:

- <2 out tying or winning run on third 7th inn or later infield should play in. Infield plays back all other times.
- Always hold runner on 1st adjusted SSN > 14. Don't hold N's
- Pitch from stretch if runner on third is eligible to steal home SSN >15 7th or later
