

2021 Warrenton Giants

Default Instructions

The Warrenton Giants have elected not to use a designated hitter. Please invalidate the DH for the Giants when loading the lineups.

Starting Pitching: The starting rotation is bad (many 1 & 2 starts). There is not enough relief to cover them so they should stay in until either they are pounded out or it is a save situation.

Bullpen: Colome and Garcia are the closers and never should be used for more than an inning. Otherwise mix and match.

Hit & Run: I like to use it to stay out of a double play or to advance a player into scoring position or to get extra hit numbers versus high grades.

Stealing: Tucker and Gonzalez are the only players with any number of steals.

Pinch Hitting, Pinch Running: I do it a lot. Your discretion but keep in mind double switches.

Defensive Replacement: When the Giants lead in the late innings of a close game bring the best gloves available.

Base Running: I like to be aggressive. I would rather a player be thrown out on the bases than left to die there. Force the other team to make the perfect play and make errors.

Infield Depth: Play **"DEEP"** for the DP, unless the tying or go ahead run is on 3rd in late innings.

Road Mangers: Sending of scripts or score sheets is optional. If computer players wish to use a micro manager let me know and I will send you one I created.

Primarily, have fun. These instructions are meant as a guideline. Do not be afraid to do something else if it makes sense to do so.
