

**Brobdingnag, 2023****We will use the boards. On computer, no script is necessary. I will send out monthly instr.**

This Barbarianseason is payback for years of hiering mercenaries and using the draft for fill immediate needs.

We are younger, but neither good nor deep. There will be few moves to be made on offense because there just aren't enough extra games. There are arms on the roster, just too many bad ones.

This roster does not deserve detailed instructions, so please read what is here & try to squeeze out a win or two when the dies gods smile on us, and don't sweat the small stuff. It's almost all small stuff.

We'll be back--but not this year. Vlad is enjoying last seasonas he takes a six month cruise around the world. That tells you all you need to know about our 2023 expectations.

Each month before November will have 14 hitters, but *ONLY* Toro is allowed off the bench, he can be used freely though to be honest, it is hard to see why anyone would voluntarilly use him  
There will be 5 starters and 7 relievers each month.

**BENCH****Only 2 players! NO OTHERS!!**

CLEMENT,Ernie

He *IS* the bench. He has no redeaming social or baseball value.

CAMPUSANO,Luis

He will be up in November only, and I will send useage instructions for him then.

**Pinch Hitting**Would YOU want Ernie to pinch hit for *your* team? I didn't think so. Just say NO.**Pinch Runner**

Toro can PR for any S runner if tie/win run, 9th+ inn.

**Defensive Subs**

None

**Baserunning**

Won't have many scoring chances-be aggressive when we do.

**Strategies in order****1. Steal (1st priority)**

Acuna if tie/win run on 1st, 0 out, 8th+ inning

**2. H&R**

Acuna/Straw/Machado on 1st, not Soto at bat, score +/- 2, 5th inn+.

**3. Sacrifice**

No outs, tie/win run on 1st or 2nd, and hitter from #6 to #9. H&amp;R takes priority.

**Injury Replacement**

All positions other than Catcher, CLEMENT

C: Campusano if he is up, otherwise Narvaez

**All Else**

INF position, hold, throwing for runners.... (default is HOLD and DEEP)

Please play my team as you do yours.

As with the hitters, there really isn't a lot here. Starters need to go deep in games. We have just over 300 inning of real relief, and no real closer. The real relief innings will be saved for the 7th inning+, and there is not enough to cover all of that, so the arson squad has to pitch in situations where that is not ideal.

**Remove Starters**

- Inn 1-6** ONLY if the rules require
- Inn 7 & 8** If I'm +3 to 0, runner on base, starter Gd 6 or less
- Inn 9+** If I'm +3 to 0, runner on base, starter Gd 12 or less

**Use Relievers**

- Closer** Duran is the closer all season, or until he is used up. Only 9th in save situations. Max 1 IP/gm. If he blows the save he's GONE!
- 7th & 8** 2 or 3 "7th/8th" inn relievers who **NEVER** enter before 7th. Mix and match to get L/R or +5 to survive a threat
- 1st to 6th & blowouts** There will be 2 or 3 "early" pitchers each month. They pitch all other situations after the starter is out.
