

Brobdingnag, 2023 We will use the boards. On computer, no script is necessary. I will send out monthly instr.

This Barbarianseason is payback for years of hiring mercenaries and using the draft for fill immediate needs. We are younger, but neither good nor deep. There will be few moves to be made on offense because there just aren't enough extra games. There are arms on the roster, just too many bad ones. This roster does not deserve detailed instructions, so please read what is here & try to squeeze out a win or two when the dies gods smile on us, and don't sweat the small stuff. It's almost all small stuff.

We'll be back--but not this year. Vlad is enjoying last seasonas he takes a six month cruise around the world. That tells you all you need to know about our 2023 expectations.

Each month before November will have 14 hitters, but *ONLY* Villar is allowed to come off the bench, and that rarely.

There will be 5 starters and 7 relievers each month.

BENCH	ONLY 2, NO ONE ELSE come off the bench, never before the 7th unless injury.
VILLAR,Jonathan	Villar /S the bench. BUT he only has 25 games. He will be PA limited.
CAMPUSANO,Luis	He will be up in November only, and I will send useage instructions for him then.
Pinch Hitting	Only in the 8th or later, only if the tie/win run is on base or at the plate. Can PH for Garcia 8th INN+or Cordero, 9th+ vs LHP. Or Catillo vs RHP 8th INN+.
Pinch Runner	For any S runner if tie/win run, 9th+ inn. (Only 1 Villar, you decide better to PH or PR)
Defensive Subs	None
Baserunning	Won't have many scoring chances-be aggressive when we do.

Strategies in ordeer

- | | |
|-------------------------|---|
| 1. Steal (1st priority) | Acuna if tie/win run on 1st, 0 out, 8th+ inning |
| 2. H&R | Acuna/Straw/Machado on 1st, not Soto at bat, score +/- 2, 5th inn+. |
| 3. Sacrifice | No outs, tie/win run on 1st or 2nd, and hitter from #6 to #9. H&R takes priority. |

Injury Replacement

As with the hitters, there really isn't a lot here.

Starters need to go deep in games. We have just over 300 inning of real relief, and no real closer. The real relief innings will be saved for the 7th inning+, and there is not enough to cover all of that, so the arson squad has to pitch in situations where that is not ideal.

Remove Starters

Inn 1-6 ONLY if the rules require

Inn 7 & 8 If I'm +3 to 0, runner on base, starter Gd 6 or less

Inn 9+ If I'm +3 to 0, runner on base, starter Gd 12 or less

Use Relievers

Closer Duran is the closer all season, or until he is used up.

Only 9th in save situations. Max 1 IP/gm

If he blows the save he's GONE!

7th & 8 2 or 3 "7th/8th" inn relievers who **NEVER** enter before 7th. Mix and match to get L/R or +5 to survive a threat

1st to 6th & blowouts There will be 2 or 3 "early" pitchers each month. They pitch all other situations after the starter is out.
